## PROFESSIONAL SUMMARY

Full-Stack Developer with freelance experience contributing to web applications for US- and Australia-based clients. Builds frontend and backend features using React, Next.js, Node.js, TypeScript, and MongoDB, including REST API integrations and AI-powered SaaS applications.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript (ES6+)
**Frontend:** Next.js, React.js, Tailwind CSS
**Backend & Databases:** Node.js, Express.js, NestJS, MongoDB
**AI & APIs:** LLM APIs (OpenAI, Mistral, Groq), REST APIs, Stripe, JWT, Clerk
**Cloud & DevOps:** Docker, Docker Compose, Azure App Services, GitHub Actions (CI/CD), Nginx

## PROFESSIONAL EXPERIENCE

### Frontend Developer (Freelance)
*Feb 2026 - Present*

*E-Commerce Platform, US-Based Client (Remote)*

- Developed frontend features for a US-based e-commerce application using React.js and Next.js.
- Built responsive UI components and integrated REST APIs to connect frontend workflows with backend services.
- Worked on application responsiveness, SEO, and cross-browser compatibility using Next.js.

### Full-Stack Developer (Freelance)
*Apr 2026 - Jun 2026*

*Freelance Marketplace Platform, Australia-Based Client (Remote)*

- Developed frontend and backend features for an Australian freelance marketplace platform.
- Implemented backend functionality using NestJS and built responsive frontend components with React.js and Next.js.
- Collaborated with senior developers on feature implementation, API integration, and application architecture.

## PROJECTS

### HandoutAI: AI-Powered Learning SaaS | Live Demo
*June 2026 - Aug 2026*

*Next.js, Express.js, TypeScript, Node.js, MongoDB, Mistral API, Tailwind CSS*

- Built and deployed an AI-powered SaaS application that converts PDF, DOCX, and TXT files into interactive MCQ quizzes.
- Integrated the Mistral API to generate quizzes with configurable question counts and difficulty levels.
- Implemented authentication, credit management, saved quizzes, PDF export, and progress tracking.
- Developed responsive interfaces for taking quizzes, resuming attempts, and reviewing performance.

### CompleteMe: E-Commerce Platform | Live Demo
*Nov 2025 - Jan 2026*

*Next.js, TypeScript, MongoDB, Tailwind CSS*

- Built and deployed a full-stack e-commerce platform with product browsing, cart management, checkout, and order workflows.
- Integrated Stripe checkout and implemented backend payment handling.
  Developed authentication and session management, using TypeScript across frontend and backend
- functionality.

## EDUCATION

### BS Computer Science (BSCS)
*Virtual University of Pakistan*
