SUMMARY

MERN Stack Developer with experience contributing to production applications for US and Australian clients. I build full-stack web apps using React.js, Next.js, Node.js, Express.js, and MongoDB, and I can contribute from day one without needing to be taught the basics.

WORK EXPERIENCE

Frontend Developer (Freelance)

Feb 2026 - Jun 2026

E-Commerce Platform, US-Based Client

- Contributed to a production-level e-commerce application within a collaborative team environment
- Built and integrated responsive UI components using React.js and Next.js
- Ensured seamless frontend-backend communication through REST API integration
- Optimized application performance, SEO using Next.js built-in features, and ensured full responsiveness and cross-browser compatibility

Full-Stack Developer (Freelance)

Apr 2026 - Jun 2026

Freelance Marketplace Platform, Australia-Based Client

- Contributed to a freelance marketplace platform across both frontend and backend
- Implemented backend features using NestJS and frontend components with React.js and Next.js
- Collaborated with senior developers on architecture decisions and feature delivery
- Delivered features within real client deadlines and iterated based on client feedback

PROJECTS

Inventory Management System with POS | [Live on Vercel](#)

Aug 2025 - Oct 2025

React.js, Node.js, Express.js, MongoDB, JWT

- Built a full-stack inventory and POS system with role-based access for Admin and Employee roles
- Secured routes and sessions using JWT authentication
- Developed dashboards with charts for stock and sales insights
- Designed and structured RESTful APIs using Express.js to handle all product, stock, and user operations

CompleteMe E-Commerce Platform | [Live on Vercel](#)

Nov 2025 - Jan 2026

Next.js, TypeScript, MongoDB, Tailwind CSS

- Built a complete e-commerce platform with product listing, cart management, and backend-driven billing logic using Next.js and MongoDB
- Implemented secure user authentication and session handling
- Architected the full project using TypeScript for type safety across both frontend components and backend API routes
- Deployed and maintained on Vercel with a live production URL

SKILLS

Frontend:	React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3
Backend:	Node.js, Express.js, NestJS, REST APIs, JWT
Databases:	MongoDB
Tools:	Git, GitHub, Vercel

EDUCATION

BS Computer Science (BSCS)

2025 - Present

Virtual University of Pakistan
